

LADYBUG CORNER BOOKMARK

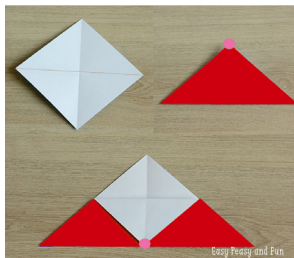

BOOKS
2
YOU

What you need:

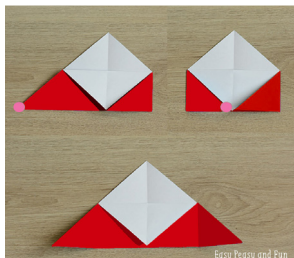

- A piece of red paper cut into a square shape
- Black paper

- White paper
- Black marker
- Glue
- Scissors

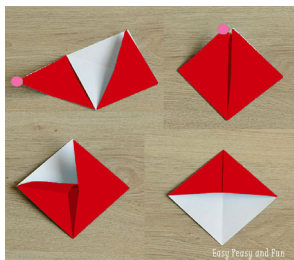

Step 1

Start by folding the red paper diagonally. Fold into a triangle. Grab the top corner of the triangle, one layer only - as indicated by the pink dot on the image below and fold it towards the bottom, as indicated by the pink dot.

Step 2

Now grab hold of the left (or right) corner of the triangle and fold it towards the middle (as indicated by the pink dot). Crease well. Repeat with the other corner. Unfold.

Step 3

Grab the left (or right) corner of the triangle again, this time bringing it to the top (as indicated by the pink dot). Crease. Repeat with the other side. Now tuck the flap into the pocket, grab the top as indicated by the dot and push it inside the pocket. Do the same with the other. Crease.

Step 4

Time to decorate the ladybug. Cut a triangle that fits into the "square" out of black paper. Glue it on the corner bookmark (on the single layer part). Now cut an round shape - this way getting the head.

Step 5

Cut two white eyes and stick them on. Now take a black marker and draw the eyes, a straight line on the middle and seven little dots.

This adorable ladybug corner bookmark is ready to save your pages!
